

**Dov Avigad**  
Curriculum vitae (updated 2022)

Professor, Raymond F. Kravis Chair in Geology

**Academic degrees:**

- 1981: B.Sc. Geology. The Hebrew University.
- 1984: M.Sc. Geology. The Hebrew University.
- 1990: Ph.D. Geology. The Hebrew University.

**Post-doctoral research:**

- 1990: Geological Survey of Israel: mapping and petrology of the Precambrian Roded Block.
- 1990-1992: Laboratoire de Géologie de l'Ecole Normale Supérieure (Paris): High-pressure metamorphism and geodynamics of the Western Alps.

**Academic appointments at the Hebrew University:**

1992-Lecturer, 1998-Senior Lecturer, 2004-Associate Professor, 2009-Full Professor.

**Administrative duties:**

- 2004 - 2005 Chairman of Geology program
- 2006 - 2010 Committee member HU Authority of Research Students
- 2010 - 2012 Member of tenure committee, Faculty of Mathematics and Natural Sciences
- 2012 - 2015 Chairman of Earth Science program

**Additional activities (selected):**

- 1997 - 1998 Guest scientist and CNRS research associate at ENS - Paris (Sabbatical)
- 2000 - 2010 Editorial board member, Israel Journal of Earth Sciences
- 2005 - 2006 Guest scientist at CEREGE – Aix en Provence (Sabbatical)
- 2007 Field leader, pre-Penrose-Conference excursion to the Aegean Sea.
- 2008 - Present: advisor board member, Journal of African Earth Sciences.
- 2009 President, Israel Geological Society.
- 2008-2009 Chairman of scientific committee Israel Science Foundation (Earth and Environmental Sciences).
- 2017 Chairman of scientific committee Israel Science Foundation binational program (Earth and Environmental Sciences).

**Awards and distinctions**

- 1983 Diker-Shraga memorial prize of the Institute of Earth Sciences.

- 1985 Peretz Grader memorial prize of the Geological Society of Israel.
- 1990 Chateaubriand Fellowship.
- 1996 "Arc en Ciel" binational program with ENS Paris.
- 2009 President of the Israel Geological Society.
- 2015 Raymond F. Kravis Chair in Geology.
- 2019 Prof. R. Freund memorial award of the Israel Geological Society.

**Courses:**

- Global Tectonics
- Precambrian crustal evolution of the ANS in southern Israel – excursion.
- Precambrian crustal evolution of the ANS in southern Israel – field mapping near Eilat.
- Optical mineralogy.
- Orogenic processes (field excursion to the Aegean Islands)

**Research students:**

**M.Sc. students**

- Ziv, Alon (1996). The Alpine folding on Andros, implications for strain development and the kinematics of the western Cyclades. (co-supervised with Z. Garfunkel). *Currently Professor at TAU.*
- Katz, Oded (1996). Structure and petrology of the Precambrian basement of the SE Roded Block (Elat area, Israel). (co-supervised with A. Matthews and A. Heimann). *Currently Senior Researcher at the GSI.*
- Shaked, Yonatan (1997). A geological study of the Almyropotamos tectonic window (Evia, Greece), (co-supervised with Z. Garfunkel). *Currently at IOI.*
- Lensky, Nadav (1997). Petrology and structure of an Alpine HP-LT terrane - S. Evia. (co-supervised with Z. Garfunkel). *Currently Senior Researcher at the GSI.*
- Kolodner, Keren (1998). High-temperature metamorphism in the eastern Cyclades (co-supervised with A. Matthews). *Currently chief geologist at Geoprospect Ltd.*
- Le Bayonn, Ronan (1998). Alpine deformation and metamorphism at the base of the Dora Maira coesite-bearing terrane (Western Alps, Italy). (DEA a l'ENS (Paris), co-supervised with C. Chopin).
- Rosenbaum, Gideon (1999). Crustal deformation at high-pressure metamorphic conditions (Syros, Greece). (co-supervised with Z. Garfunkel). *Currently Professor, University of Queensland, Australia.*

- Zeffren, Sara (2001).  $^{40}\text{Ar}/^{39}\text{Ar}$  geochronology of hangingwall rocks above low-angle detachments (Tinos and Ikaria, Greece). (co-supervised with A. Heimann, Geological Survey).
- Crouvi, Onn (2001). Remote Sensing for lithological mapping, using the Airborne Hyperspectral Scanner DAIS 7915. Example from Timna valley. (with E. Ben-Dor, Tel-Aviv University, and M. Beyth, Geological Survey). *Currently researcher at the GSI.*
- Be'eri-Shlevin (2002). The island of Anaphi (Cyclades): a bridge between the internal and the external Hellenides. (co-supervised with A. Matthews). *Currently Senior researcher at Israel Oceanographic and Limnological Research Ltd.*
- Gerszman, Ronen (2005). Remote sensing mapping (with ground control) of an active rift: Zula bay (Red sea Eritrea). (co-supervised with E. Ben Dor and M. Beyth).
- Morag, Navot (2006). Geochronology and advanced petrology of detritus from Alpine foreland basins, SE France. (co-supervised with Y. Harlavan). *Currently researcher at the GSI.*
- Petranker, Gilad (2011). Zircon U-Pb-Hf of the Neoproterozoic and Cambro-Ordovician sequences from the central Western Taurus: Implications for provenance and North Gondwanan crustal evolution (co-supervised with A. Gerdes). *Currently high-school teacher.*
- Zlatkin, Olga (2011). Evolution of the Menderes basement (Turkey) as revealed by coupled U-Pb-Hf in zircons. *Currently head of marine science branch at the Ministry of Energy.*
- Abbo, Avishai (2012). U-Pb-Hf in zircons from the Neoproterozoic and Lower Paleozoic of the Tauride (Turkey). *Currently Minerva post-doctoral fellow at Goethe University Frankfurt.*
- Ben Dor, Yoav (2015). Provenance of the Cambrian siliciclastic sequence in Israel: Isotope geochemistry of heavy Minerals, clays and feldspars (co-supervised with Y. Harlavan). *Currently researcher at the IGS.*
- Kedem, Nadav (2018). Origin of the Neogene siliciclastics of the Hazeva Formation (co-supervised with Y. Harlavan).
- Glazer, Adar (2020). The Kyrenia Range in Northern Cyprus: geochronology and petrology of a Neo-Tethys suture in the Eastern Mediterranean. (co-supervised with N. Morag). *Currently Ph.D. student at HU.*
- Vardi, Chen (in progress). Crustal evolution of the northern Arabian-Nubian Shield from zircon U-Pb-Hf-O.

### **Ph.D. students**

- Katzir, Yaron (1999). The origin and Alpine metamorphism of ultrabasic rocks in the Cycladic massif. (with Z. Garfunkel and A. Matthews). *Currently Professor at BGU.*
- Kolodner, Keren (2007). The provenance of the siliciclastic section in Israel and Jordan: U-Pb dating of detrital zircons. *Currently chief geologist at Geoprospect Ltd.*

- Morag, Navot (2011). Evolution of the Arabian-Nubian Shield and the provenance of the Paleozoic section in Elat area (southern Israel): new insights from the Hf isotopic composition and U-Pb dating of zircon. *Currently researcher at IGS.*
- Zlatkin, Olga (2017). Peri-Gondwana terranes in the Eastern Mediterranean region. *Currently head of marine science branch at the Ministry of Energy.*
- Abbo, Avishai (2020). Crustal evolution of Cadomian terranes and their transition to Gondwana in the East Mediterranean area. *Currently Minerva post-doctoral fellow at Goethe University Frankfurt.*
- Glazer, Adar (in progress). Provenance studies of siliciclastic sediments in the Eastern Mediterranean region: Paleogeographic and tectonic implications. (with N. Morag).

**Post-doctoral:**

- Sanchez-Gomez, Mario (Ph.D. University of Granda, Spain, 1997). 1998-1999: Miocene exhumation in the Cyclades from radiometric dating and petrology of detrital pebbles in detached sedimentary basins. (with A. Heimann). *Currently Professor at Jaen University, Spain.*
- Teutsch, Nadya (Ph.D. Hebrew University). 2007- 2008: Precambrian-Cambrian pedogenesis at the Arabian-Nubian Shield. *Currently Senior researcher at the Israel Geological Survey.*
- Be'eri-Shlevin, Yaron (Ph.D. Ben Gurion University of the Negev 2009). 2011-2013: Lady Davis Fellow. Provenance of Nile sediments in the Levant. *Currently Senior researcher at Israel Oceanographic and Limnological Research Ltd.*
- Morag, Navot (Ph.D. Hebrew University 2011). 2015-2016: Provenance of the Miocene clastic sediments in northern Israel. *Currently researcher at Israel Geological Survey.*
- Leo Milloing (Ph.D. University of Würzburg 2009). 2017: Laser ablation U-Pb dating of regional metamorphic garnet. (with A. Gerdes). *Currently researcher at Goethe University.*
- Shaanan, Uri (Ph.D. University of Queensland 2016). 2018 – 2019: Lady Davis Fellow. Tectonics and sedimentation in the Kyrenia Range of Northern Cyprus with special reference to the Kythrea flysch. *Currently post-doc at Israel Geological Survey.*

**Dov Avigad – List of publications (updated April 2021)**

**Peer reviewed international journals**

1. Avigad, D. and Garfunkel, Z., (1989). Low-angle faults underneath and above a blueschist belt, Tinos (Cyclades). *Terra Nova* 1, 182-187.
2. Matthews, A., Reymer, A., Avigad, D., Cochin, J. and Marko, S., (1989). Pressure and temperatures of Pan-African high-grade metamorphism in the Elat association, NE Sinai. *Israel Journal of Earth Sciences* 38, 1-17.

3. Avigad, D. and Garfunkel Z., (1991). Uplift and exhumation of high-pressure metamorphic rocks: the example of the Cycladic blueschist belt (Aegean Sea). *Tectonophysics*, 188: 357-372.
4. Avigad, D., Matthews, A., Evans, B. and Garfunkel, Z., (1992). Cooling during the exhumation of a blueschist terrain (Sifnos). *European Journal of Mineralogy*, 4, 619-634.
5. Avigad, D., (1992). Exhumation of coesite-bearing rocks in the Dora-Maira massif (Western Alps; Italy). *Geology* 20, 947-950.
6. Avigad, D., Chopin, C., Goffé, B., & Michard, A., (1993). Tectonic model for the evolution of the western Alps. *Geology*, 21, 659-662.
7. Avigad, D., (1993). Tectonic juxtaposition of blueschists and greenschists in Sifnos island - implications for the structure of the Cycladic blueschist belt. *Journal of Structural Geology*, 15, 1459-1469.
