

**Call for Applications for Tenure-Track Faculty Positions**  
**The Institute of Earth Sciences, The Hebrew University of Jerusalem**

The Institute of Earth Sciences in the Faculty of Science at The Hebrew University of Jerusalem seeks outstanding candidates for tenure track faculty positions at all levels beginning in the summer/autumn of 2019. Candidates must have a Ph.D. degree in any field of Earth Sciences. The ideal candidate will have significant post-doctoral experience, though outstanding candidates at early stages of their post-doctoral research will also be considered.

Candidates will be evaluated on the basis of their academic credentials, their potential for undertaking ground-breaking research, and their commitment to teaching and to mentoring students. Successful candidates are expected to establish and lead an independent research team pursuing a state-of-the-art research program and to contribute significantly to the undergraduate and graduate teaching programs.

The review of applications will begin on **October 14, 2018**, and applicants are strongly encouraged to submit applications by that date; late applications may be considered if the positions have not already been filled.

**Each application should include (please follow the detailed instructions):**

- the applicant's **curriculum vitae** – [Please follow the exact instructions here.](#)
- an updated **list of publications**, including an explanation regarding the contribution of the applicant to each multi-authored publication – [Please follow the exact instructions here.](#)
- the applicant's **scientific biography** (2-4 pages)
- a **research proposal** detailing the candidate's research plans for the next several years
- the candidate's **teaching interests**, including names and short descriptions of potential courses
- a list of the candidate's **previous teaching experience**, including teaching evaluations as available
- PDF files of the three most **representative papers** of the candidate's work thus far
- **recommendation letters** from the candidate's Ph.D. and postdoctoral advisors (if there is more than one Ph.D. or doctoral advisor, a letter should be supplied by each one) – these letters should be sent by the advisors directly (not via the candidate) to Prof. Yehouda Enzel
- a list of **five referees** who are experts in the candidate's field and who may be approached by the Faculty of Science to evaluate the candidate's qualifications for the requested position – please describe the level of candidate's acquaintance with the suggested referees and include at least two referees with whom the candidate has not collaborated (**do not approach these referees directly**)

**Contact Persons:**

Prof. Yehouda Enzel, Chair  
The Institute of Earth Sciences
